

## THE ULTIMATE LIVER D-TOX™\*\*

The human liver is considered by many to be the most crucial organ. It is responsible for cleansing, protein synthesis, biochemical production, glycogen storage and even plays a major role in metabolism.\*

Liver D-TOX™ is a combination of clinically proven herbal extracts in their pure form along with powerful Vitamin Antioxidants such as Vitamins C & E, Selenium and NAC (N-Acetyl-Cysteine).\*

The Milk Thistle Extract (MTE) that we have sourced is not only standardized for 80% Silymarin, but also standardized for the lesser known, but highly potent 30% Silybin content. MTE is widely known for its proven ability to support liver's natural detoxification system.\*

Liver D-TOX™ uses a 95% pure Curcumin Extract renowned for its potent detoxification and antioxidation functions. Artichoke Extract at 5% Cynarin is included for its hepatoprotective function. Katuka Extract has a centuries long tradition in Ayurvedic medicine as a liver tonic.\*

As athletes, we put our livers through a lot. We depend heavily on it for everything from protein digestion to body cleansing. If you want to perform at the highest levels, you owe it to yourself to do a 21-Day Liver D-TOX™.
