ALLMAX Yohimbine + Rauwolscine (Alpha-Yohimbine) are the pure synthetic versions of Pausinystalia Yohimbe and Rauwolfia serpentina; more powerful than the original herbal extracts from which they were isolated.

Most frequently used for fat metabolism due to its targeted ability to act on stored fat. Yohimbine + Rauwolscine limits fat storage and boosts lipolysis; the release of fatty acids within stored fat.*

Rauwolscine (or Alpha-Yohimbine), is the more rare variation of Yohimbine with a longer half-life. This means you need less of it to create a greater effect; it lasts longer and is the perfect complement to Yohimbine.*

Yohimbine + Rauwolscine is one of the most effective and efficient fat burning aids. Widely praised for its unique MOA (Mechanism Of Action), Yohimbine + Rauwolscine is radically different than caffeine. While caffeine is one of the best fat burning analogs out there, those who are looking to "cycle off" caffeine can use Yohimbine + Rauwolscine to achieve similar results in a different way.*
